

ASR Anti Slip Abrasive Strips from ASSSCO Products www.asssco.com.au

ASR anti slip strips have been designed to offer lasting slip resistance. They are made from a composite material that is suitable for use in harsh environments; including, high exposure to salt water. During the manufacture process silicon oxide is incorporated to form an inseparable gritted surface. The strips are available in two standard sizes.

- ◆ ASR50 – 50mm wide
- ◆ ASR90 = 90mm wide.

Both strips are approximately 3mm thick. They are available in black with a commercial grit or in yellow with a heavy duty industrial grit finish. ASR 50 strip complies with requirements as of AS1428.1:2009 Design for Access and Mobility, 5 Year Warranty for fitting & performance, when fitted by our company.

Anti Slip Inlay

ASR 508 inlay is suitable for installation in pre-grooved timber or concrete stairs. The ASR 508 inlay can also be used as a lead in edge. ASR 508 is a composite material with hard wearing silicon oxide anti slip grit. The inlay is 50mm wide x 8mm thick and is available in black. The material is suitable for high exposure to salt water and offers high resistance to chemicals such as acid, alkali and solvent liquid. ASR 508 inlays are supplied cut to size in maximum 4 meter lengths. ASR 508 strip complies with requirements as of AS1428.1:2009 Design for Access and Mobility
